

*In Honor of the Families and Victims  
of Iron 44*

**Benefit Auction for the  
Wildland Firefighter Foundation**

The National Wildland Fire Suppression Association (NWSA) is a non-profit organization that is made up of over 200 private wildland fire service contractors who operate on an as-needed basis to provide federal/state and local agencies with a variety of resources for wildland fire and other emergency incidents. Every year a group of over 200 business owners representing more than 10,000 employees in the private wildland fire service field come together for an auction to benefit the Wildland Firefighter Foundation.

The Wildland Firefighter Foundation ([www.wffoundation.org](http://www.wffoundation.org)) is an incredible organization that provides support both emotionally and financially to families of fallen or injured firefighters.

Because of support and donations from organizations like yourself, the NWSA has been able to raise over \$200,000 over the past few years for the Wildland Firefighter Foundation at our Annual Benefit Auction. And we aren't slowing down!

For each tax deductible donation, your company name will be advertised with the item, whether it is held in a silent auction, or announced in the live auction, and it will be printed in the Auction Brochure that is distributed to over 250 personnel in the private wildland firefighting services field, including the actual company owners and decision makers.

**To Donate, please contact Debbie Miley at the number below or the person who provided you with this request.**

*Thank you in advance for your support in our industry.*
