# Statistics for 2017

Percentage of Dispatches by GACC

# Equipment Numbers & Utilization

## Fire Season 2017

- Region 6 has 1163 Vendors with 3479 pieces of equipment including fallers and Ambulance EMTs
- Resource Orders Filled: 4303 for a total of 55,271 days
- Waterhandling had 2393 orders for 27,416 days

# Incident Contract Project Inspectors

- We are continuing to increase our capacity in the ICPI program.
- We are providing coordination and oversight to the ICPI Program.
  - Increased communications via email and conference calls throughout the summer
  - Training and Refreshers
  - Equipment Inspection Workshop

# Successes

- Working on future training for agency employees
  - Provide a better understanding of contractors role in fire management
  - Continued Communication and Education of the user community

# Relationships

- ① We continue to build relationships with our State partners in an effort to increase efficiencies
- ① New Contracting Committee being assembled under the Incident Business Committee.
  - Provide an avenue to continue with interagency collaboration on contract equipment utilization

# Collaboration

- We have worked for the last two years with the WADNR to create efficiencies in vendor owned resource utilization.
- Operating under the same agreement ensures that equipment is inspected and safe and that employees are trained.

# WA-DNR Clauses added to VIPR

- DNR Clauses added to VIPR Agreements.

- Clauses apply on DNR incidents
- DNR will be utilizing DPLs as the primary source list for DNR incidents
